WHO WE ARE

SME Solutions is a Capital Management, Activation, and Logistics firm.

Planning and delivering complex facilities across the commercial, hospitality, healthcare, education, aerospace, and government sectors requires disciplined coordination, regulatory awareness, and operational precision. SME Solutions provides end-to-end Integrated Program Management, Activation, and Logistics services—uniting Equipment Planning, Equipment & Logistics Integration, and Initial Outfitting under one accountable team. From room-by-room requirements validation and virtual space modeling through procurement, warehousing, delivery, installation, testing, and training, we maintain visibility of every asset from acquisition through turnover—so facilities are fully equipped, on schedule, within budget, and ready to perform on day one.

Every completed project is CPAR-rated ‘Exceptional’.
