Samsung is dedicated to delivering best-in-class technology not only to the veterans of America, but also to their families and caregivers. From mobile telehealth to artificial intelligence to advanced imaging devices, Samsung invests heavily in research and development. Our engineers are relentlessly innovating to bring newer, smarter devices to market, accelerating the time it takes to diagnose and improve health for our veterans, active-duty service members, and their dependents.

ATO Approved Ultrasound Products

RS85 PRESTIGE

EMASS: 2608
